

Spiritual Growth and Remote Viewing Class

Achieve spiritual growth and learn to Remote View in a unique program involving a combination of personal spiritual development and a scientifically driven educational protocol in Remote Viewing. This unique program, offered here at the Fraternal Spiritualist Church, begins 27 February 2016 and continues through 16 April 2016. Classes will only be on Saturday in the late morning to early afternoon for approximately 2 ½ hours each class for a total of eight (8) Saturdays.

Given the unique opportunity this class offers our community, classes are sure to fill up quickly because of limited seating and testing facilities. Pre-enrollment reservations are highly recommended and can be obtained by contacting the Senior Instructor Craig Hendricks

Class cost is \$10.00 per class payable on the day of each class to an admissions representative of FSC. Normal costs for a basic Remote Viewing program are often in excess of \$2000.00 for a one week program. Additional costs for accommodations/dining and travel can drive the overall cost much higher. This is an incredible bargain only offered here at FSC to the local community.

Instructor Biographies for this program include:

Mr. Craig Hendricks studied and obtained his degree at San Diego State University and is a retired Senior Intelligence Analyst currently employed by the United States Navy as an Operations Research & Systems Analysis Project Lead and Statistician for a Quantitative Fleet Feedback program. Craig also leads a research program to identify enhanced methods of human perception that contribute to the mitigation of risk for operational elements of law enforcement and the military as a private endeavor.

Ms. Trisha Horn has studied and obtained her degree at Montana State University. Trisha is currently employed as a Surgery Registered Nurse and believes in the efficacy of western medicine, but also believes strongly in alternative and spiritual healing. Through her professional endeavors she has supported the healing process of many patients with their emotional and physical problems and now also as a certified clinical hypnotherapist.
